```

[20]:

3.2 2.2. Criação das Hipóteses

3.2.1 2.2.1. Hipóteses Loja

1. Lojas com número maior de funcionários deveriam vender mais.
2. Lojas com maior capacidade de estoque deveriam vender mais.
3. Lojas com maior porte deveriam vender mais.
4. Lojas com maior sortimentos deveriam vender mais.
5. Lojas com competidores mais próximos deveriam vender menos.
6. Lojas com competidores à mais tempo deveriam vendem mais.

3.2.2 2.2.2. Hipóteses Produto

1. Lojas que investem mais em Marketing deveriam vender mais.
2. Lojas com maior exposição de produto deveriam vender mais.
3. Lojas com produtos com preço menor deveriam vender mais.
5. Lojas com promoções mais agressivas (descontos maiores), deveriam vender mais.
6. Lojas com promoções ativas por mais tempo deveriam vender mais.
7. Lojas com mais dias de promoção deveriam vender mais.
8. Lojas com mais promoções consecutivas deveriam vender mais.

3.2.3 2.2.3. Hipóteses Tempo

1. Lojas abertas durante o feriado de Natal deveriam vender mais.
2. Lojas deveriam vender mais ao longo dos anos.
3. Lojas deveriam vender mais no segundo semestre do ano.
4. Lojas deveriam vender mais depois do dia 10 de cada mês.
5. Lojas deveriam vender menos aos finais de semana.
6. Lojas deveriam vender menos durante os feriados escolares.

3.3 2.3. Lista Final de Hipóteses

1. Lojas com maior sortimentos deveriam vender mais.
2. Lojas com competidores mais próximos deveriam vender menos.
3. Lojas com competidores à mais tempo deveriam vendem mais.
4. Lojas com promoções ativas por mais tempo deveriam vender mais.

5. Lojas com mais dias de promoção deveriam vender mais.
7. Lojas com mais promoções consecutivas deveriam vender mais.
8. Lojas abertas durante o feriado de Natal deveriam vender mais.
9. Lojas deveriam vender mais ao longo dos anos.
10. Lojas deveriam vender mais no segundo semestre do ano.
11. Lojas deveriam vender mais depois do dia 10 de cada mês.
12. Lojas deveriam vender menos aos finais de semana.
13. Lojas deveriam vender menos durante os feriados escolares.
